DMX

Shower System

The **DMX Shower System** is engineered to deliver a fully integrated, reliable, and user-friendly solution for building waterproof, long-lasting tiled showers and wet areas.

This catalog has been created to help installers, contractors, and retail partners understand the purpose, function, and installation roles of every **DMX** component within the system.

COMPONENTS

DMX Shower Base [®]	04
DMX Shower Board [®]	05
DMX Curb [®]	06
DMX Niche [®]	07
DMX Waterproof Mat [®]	08
DMX Seam Band [®]	09
DMX Corners [®]	09
DMX Pipe Seal [®]	10
DMX Mixing Valve [®]	11
DMX Drain [®]	12
DMX Sealant [®]	13
DMX Fasteners [®]	13
DMX Tile Membrane [™]	14

DMX SHOWER BASE®

DMX Shower Base is a lightweight, pre-sloped shower base designed to direct water efficiently to the shower drain. It features a high-density XPS core and a waterproof cementitious coating on both sides for strength and durability.

Variations

- 38" x 60" | Off-Center | Circular Drain
- 48" x 48" | Center | Circular Drain
- 38" x 60" | Off-Center | Linear Drain

DMX SHOWER BOARD®

DMX Shower Board is a lightweight, high-density tile backer board that is quick and easy to install. The XPS core is resistant to Vapor pressure and does not support mold growth. The XPS core is reinforced with tightly woven mesh, and encapsulated in a durable, waterproof cementitious coating on both sides. Install with **DMX Screws & Washers** and **DMX Sealant** to ensure watertight installation.

- Installs on walls & countertops
- Great for tub surrounds, walk-in showers & building benches
- Offers support for large format tiles
- Non-deteriorating/non-rotting properties that are highly durable

Variations

- 32" x 48" x 1/2"
- 36" x 60" x 1/2"
- 48" x 96" x 1/2"

DMX SHOWER CURB®

DMX Shower Curb is a lightweight, prefabricated shower curb designed to integrate seamlessly with the **DMX Shower System**.

Constructed with a high-density XPS foam core and durable cementitious coating on all sides, it is waterproof, ready to tile, and can be easily trimmed to size.

Variations

- 48" x 4.5" x 3" (L x H x W)
- 38" x 4.5" x 3" (L x H x W) – DMX Shower Kit Only

DMX SHOWER NICHE®

DMX Shower Niche is a lightweight, prefabricated niche with an adjustable shelf, designed to provide clean, integrated storage in tiled shower installations.

Variations

- 13.25" x 21.25" x 3.5" (W x H x D)

DMX WATERPROOF MAT®

DMX Waterproof Mat is a low-perm waterproofing membrane designed for installation over common shower wall substrates. Its white surface helps installers verify thinset coverage, while the integrated 1 cm × 1 cm cutting grid with 10 cm reference lines simplifies measuring and cutting. A 2" unprinted perimeter provides a guide for the required overlap between adjacent sheets.

Variations

- 3'3" x 16.5' (54 sq ft)
- 3'3" x 33' (108 sq ft)
- 3'3" x 82' (269 sq ft)

DMX SEAM BAND®

The **DMX Seam Band** waterproofing strip seals seams and transitions where water could penetrate. The joint strip also resists mold and mildew growth.

Variations

- 5" x 16.5'
- 5" x 33'

DMX INSIDE CORNER®

DMX Inside Corner is a prefabricated waterproof corner designed to seal inside wall corners in tiled showers. Its preformed design helps create a durable, watertight installation while reducing installation time. Each package includes two (2) pieces of DMX Inside Corner.

DMX OUTSIDE CORNER®

DMX Outside Corner is a prefabricated waterproof corner designed to seal outside wall corners in tiled showers. Its preformed design helps create a durable, watertight installation while reducing installation time. Each package includes two (2) pieces of DMX Outside Corner.

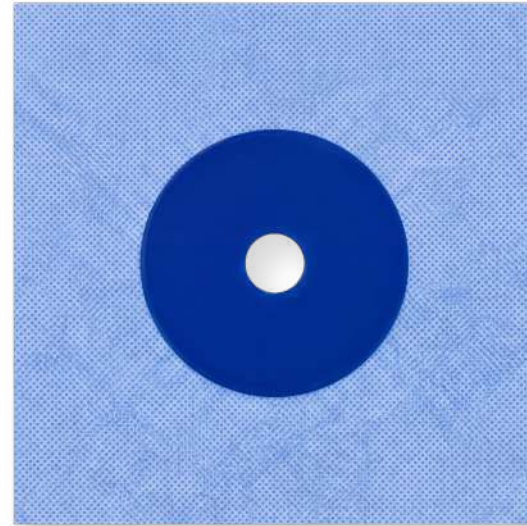

DMX PIPE SEAL®

DMX Pipe Seal is a prefabricated seal made out of cut sections of **DMX Waterproof Mat** with a flexible collar designed to seal pipe protrusions. The pipe seal also resists mold and mildew growth.

Variations

- 3.7" x 4.7" x 1/2" (W x H x O)

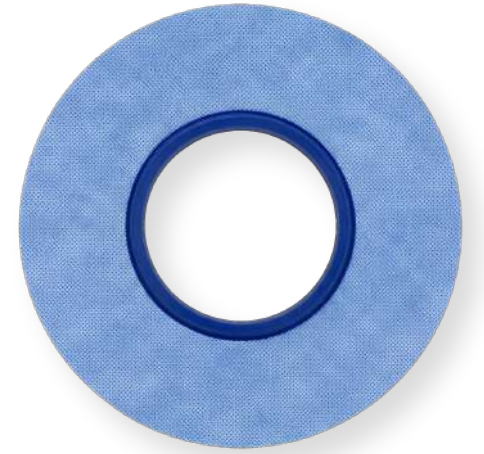

DMX MIXING VALVE®

DMX Mixing Valve is a prefabricated waterproof gasket designed to create a secure, watertight seal around shower mixing valves. Its durable, flexible rubber construction provides long-lasting protection against moisture intrusion.

Variations

- 4.5" inner diameter

DMX SHOWER DRAIN®

DMX Shower Drain is a premium shower drain system designed for use with **DMX Base** and traditional mortar bed installations. Its integrated bonding flange provides a secure, waterproof connection, while durable stainless-steel components deliver reliable performance and a modern finish.

Variations

- Circular Drain | Black or Stainless Steel
- Linear Drain | Stainless Steel

DMX SEALANT®

DMX Sealant is a premium waterproof sealing and bonding compound designed for use throughout the DMX Shower System. Its fast-curing formula creates durable, watertight seals that resist shrinking, cracking, and crumbling for long-lasting performance around joints, seams, and penetrations.

Variations

- 10 oz (300 ml)

DMX SCREWS & WASHERS®

DMX Screws & Washers offer a safe, simple and durable installation solution for **DMX Shower Board** wall panels. They are used to fasten **DMX Shower Board** panels to wood stud framing and other substrates suitable for screw connections. Each box of DMX Screws & Washers contains 40 screws and 40 washers.

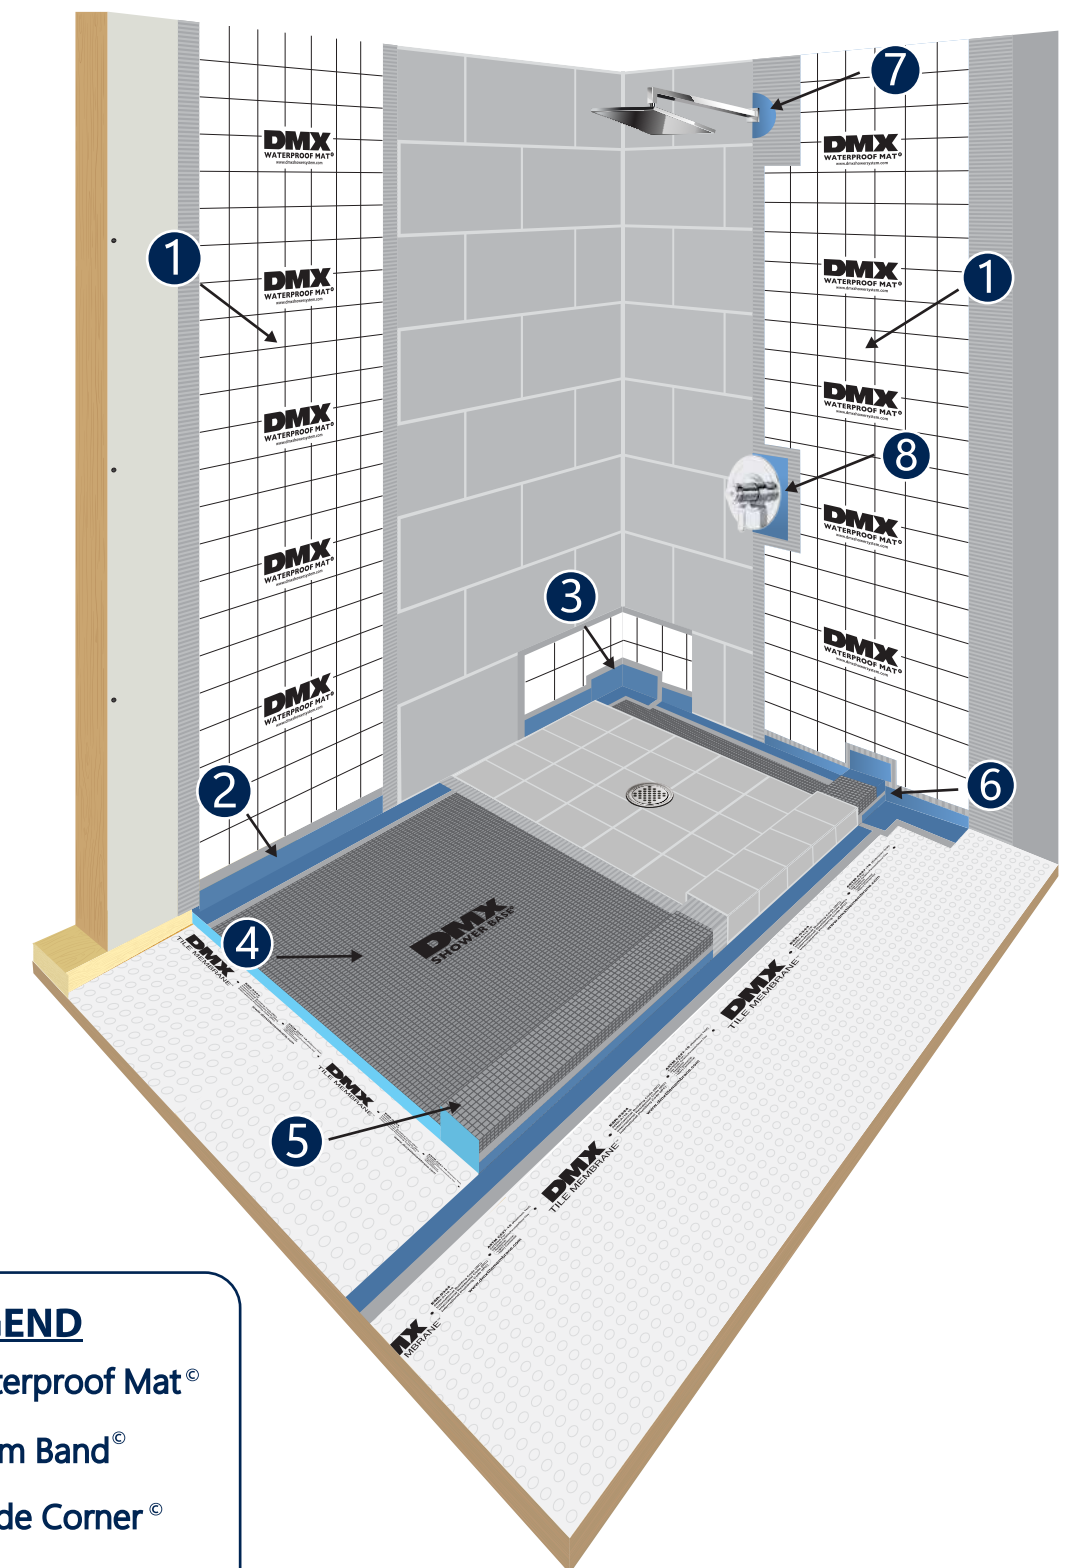

DMX Tile Membrane is a durable, lightweight tile membrane that provides crack isolation protection on cement slabs and is an easy-to-install, labor saving alternative to backer board on wood substrates.

DMX Tile Membrane features a non-woven anchoring fleece to neutralize stress caused by movement in the substrate. This waterproofing and vapour management system provides open-air channels on the underside to allow moisture to dissipate.

Variations

- 54 sq ft | Comes with a free roll of **DMX Seam Band**
- 323 sq ft | Comes with 6 free rolls of **DMX Seam Band**
